

Conduit Mounting

E-TS-P-BB-T (Threaded)

E-TS-P-BB-NT (Non-Threaded)

DS-Ce-TS -P -Mounting Rev A

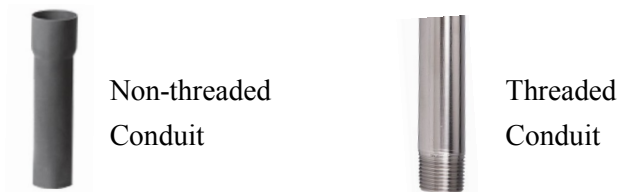

The Conduit Bracket is used when mounting the plastic touch screen using either a 1" non-threaded or threaded conduit. Two versions of the back bracket are available in a threaded and non-threaded version.

3. Mount the wall bracket inside the conduit bracket using 8 screws
4. Place the touch screen on the bracket top first and secure with the 2 bottom mounting screws

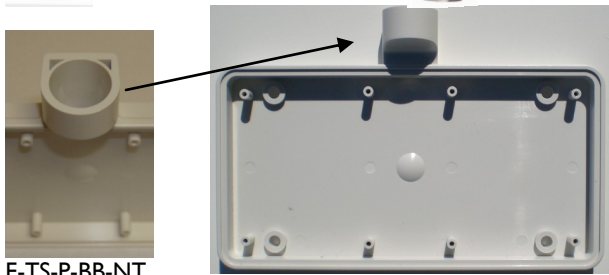

Wall bracket

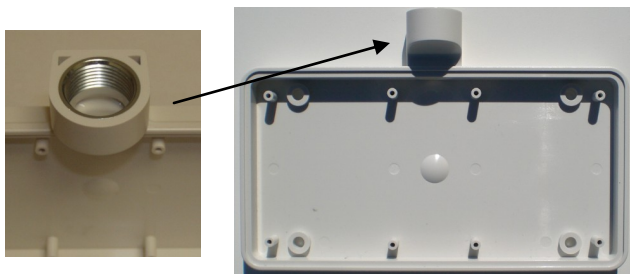

Non-threaded Conduit

Threaded Conduit

E-TS-P-BB-NT

E-TS-P-BB-T

Note: A spacer is required for proper fit

Mounting Instruction:

1. If using the threaded bracket, thread the conduit onto the flange before mounting, or apply plastic conduit adhesive on the non-threaded bracket
2. Using the appropriate mounting screws mount the bracket
