

CeLAN

2 Zone Input Module

DS-Ce-2ZI Rev A

The CeLAN 2-Zone Input Module allows for the addition of up to 2 additional supervised hardwired zones plus 1 dedicated cover and wall tamper zone. Each module includes mounting hardware and two 3.0K ohm end-of-line (EOL) resistors. Power for the module is provided by the Protector Panel, CeLAN Remote Power Module, or other approved 12 VDC power source capable of providing at least 25 mA.

Both normally open and normally closed detectors can be wired to the module inputs. Using an EOL resistor on each loop input, the module monitors all zones and alerts the panel if there is a change of state in the circuit

CeLAN data bus device:

Simply wire to any CeLAN port on the Protector Panel and provide two hardwire zones of protection.

The Protector System can support up to 100 bus devices and the system can handle up to 256 zones

Each Ce-2ZI provides 2 hardwire zones and 1 cover/wall tamper

Features

- AES Encrypted CeLAN communications
- Two (2) fully supervised input zones, with wall/cover tamper
- Five (5) state zones:
 - Open Circuit
 - Supervised Circuit (3k EOL)
 - Short Circuit
 - Ground Fault High
 - Ground Fault Low
- 'CINCH Stick' Field Upgradeable software
- Includes Accessory Hardware kit
- Supervision: 3K Ohm Resistor

Ordering Information:

Part #: Ce-2ZI includes two 3.0K ohm resistors, plastic enclosure and mounting hardware

CeLAN 2 Zone Input Module

Specifications

Power Requirements:

Input: 12 VDC (10 VDC min, 14 VDC max)
 Output: N/A
 Current Draw: 25 mA max

Dimensions: 3.5"x2.5"x.875"

Environmental:

Operation Temp: 32 to 120 F (0 to 49 C)
 Humidity: 90% relative humidity
 Storage Temp: -30 to 140 F (-34 to 60 C)

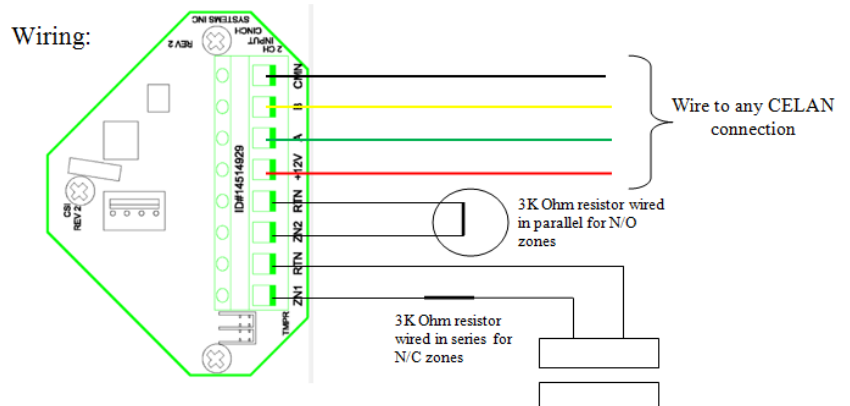

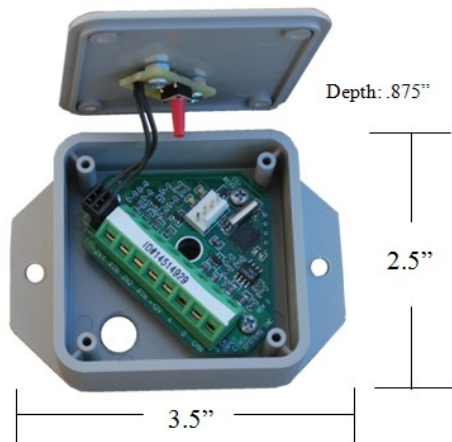

Inputs: 2 hardwired supervised inputs, 1 cover/wall tamper

CeLAN Devices per System: 100

Supervision: 3K Ohm Resistor

Listings:

UL: 1076
 FCC: Part 15
 FIPS 197
